DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because it is outside the bounds of the remaining claims. Correction is required. See MPEP § 608.01(b).
2. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. The title is misdescriptive regarding the invention.
3. Applicant is required to modify the entire disclosure of the invention and to restrict the descriptive matter so that they are confined to and in harmony with the invention to which the pending claims are directed. The application contains disclosure entirely outside the bounds of the pending claims. Applicant is required to modify the entire disclosure of the invention and restrict the descriptive matter so as to be in harmony with the pending claims. When the figures that are outside the bounds of the pending claims are cancelled, the remaining figures must be renumbered.

For example, at least Figures 1-12 are not showing a semiconductor package. Furthermore Figure 16 deals with a process claim. Figures 17-22 deal with an interposer and not with the instant claimed invention.

4. Once applicant narrows the disclosure to a reasonable extent, an action on the merits will follow.
